This is good paper on an interesting subject. I only have a few minor remarks:

Page 267, line 5: Include "from" as in "ranged from a few"
Page 267, line 19: Delete two "," from "around 2000 Bq m-3"
Page 267, line 25: Change "might prevent" into "might have prevented"
Page 270, line 1: Change "exist which was" into "present as it"
Page 270, line 15: Include "the" before "137Cs"
Page 270, line 17: Delete "because"
Page 270, line 18: Include "the" before "2000s"
